RE: Letter of Recommendation for Naveen Kolli,

Date: 2023-10-16

To Whom It May Concern,

I am writing this letter of recommendation in my capacity as a Professor in the School of Workforce Development at Conestoga College, specifically within the Applied Network Infrastructure and System Administration program for Naveen Kolli. Throughout his academic Journey, Naveen has consistently impressed me with his skills and integrity in one of the program's toughest courses.

Naveen has continually shown a strong grasp of complex concepts and tackled difficult scenarios with ease. He brings a creative problem-solving approach to his work, and has consistently demonstrated the highest level of academic achievement as well as interpersonal soft skills.

What sets Naveen apart, however, is not just his technical skillset, it's the combination of hands-on skills, exceptional communication, strategic thinking, and leadership. Naveen is a team player who often assists his peers in understanding intricate concepts and ensuring that only the work the team delivers is of the highest standards and quality.

Naveen's work ethic is beyond outstanding. He demonstrates a level of commitment and diligence that is beyond exceptional, often going far above and the required course work. He has a natural aptitude and passion for learning, which I believe will serve him well in the future. His dedication delivering exceptional results make him a prime candidate for any organization that is looking for a valuable individual who settles for nothing but outstanding results.

In all my years of teaching, few students have impressed me as much as Naveen. His combination of work ethic, talent, and creativity will be a boon to any organization, as such, has earned my endorsement as a valuable candidate for any position.

Please feel free to contact me if you need any additional information or have any questions.

Sincerely,

Serge Trunkin

Professor, School of Workforce Development - ANISA
